

FRAMEWORK PUBLICATION

The Five Pillars of Intelligence Capital (TM)

A practical architecture connecting Human, Artificial, Knowledge, Data, and Network Intelligence.

Adekunle Adegbe, PhD
Founder & Chief Executive
Chumcred Limited

Publication overview

A practical architecture connecting Human, Artificial, Knowledge, Data, and Network Intelligence.

The five pillars

- Human Intelligence - judgement, creativity, leadership, ethics, and emotional intelligence.
- Artificial Intelligence - augmentation, automation, analysis, and innovation.
- Knowledge Intelligence - capture, organisation, transfer, and application of knowledge.
- Data Intelligence - trusted data transformed into insight, foresight, decisions, and action.
- Network Intelligence - value created through relationships, communities, partnerships, platforms, and ecosystems.

Applications

- Capability development
- Leadership programmes
- AI adoption
- Workforce assessment
- Professional development

Expected outcomes

- Balanced capability investment
- Shared language for intelligence
- Improved human-AI collaboration
- Clear development priorities
